A ROUSING WEEK OF BARGAINS.

Greatest Six-day Sale on Record

Remember That This is the Greatest Week of All.

We quote the lowest prices ever known in this city.

This great sale will extend through every department in the house, and will be far-reaching in its effect. It is customary for some houses to take a few small items and name a very low price on them, and the sales on these articles would not amount to ten dollars a day. Our system is to take every article and make a leader of it. Mark it at a small profit, after buying it as cheap as it can be sold for, and this is why we can offer for this week—

Handsome long Newmarket tailor-made cloaks, made from heavy twilled diagonals, at $5, and they are well worth $10.

Beautiful tailor-made cloaks, goods that are worth from $12 to $14, at $6 50 and $7 50 each.

Bed comforts at 75c, 98c, $1 25, $1 50, $1 75 up.

Blankets at $3 50, worth $5. Blankets at $4, worth $6 50. Blankets at $5, worth $8, and blankets at $7 50 better than any $10 blanket in the city.

500 pieces flannels from the great New York auction sales. Now is the best time to buy flannels. Never before have they been sold so cheap.

VISIT OUR BIG CORSET DEPARTMENT.

A 50c corset for 35c. A $1 corset for 75c. Largest, cheapest and best line of corsets in the city.

We Continue Our Great Dress Goods Sale

For one more week. The past week was the largest we ever had. We intend this shall be still larger. We are better prepared to meet the demand.

This week we inaugurate our great handkerchief sale.

This week we continue our great sale of notions. Our entire

WINTER STOCK OF UNDERWEAR & HOSIERY

Is now in. We shall throw out big bargains in this department this week. Our great six-day sale will bring the crowd.

A six days' sale throughout the entire house. A six days' sale in every department.

Have You Guessed on the Jar of Beans?

Have You Guessed on Our Big Pumpkin?

A monster sale without an equal, extending over six days, giving our patrons the benefit of the most astounding bargains ever known.

All little girls are invited to guess on our pennies. Some little girl is sure to receive the prize doll. The big prize doll can be seen in our notion department. All are invited to call and see it.

NOTICE.

Hereby give notice that they have sold and transferred to Mr. Z. L. PARMELEE their retail stock and trade in Glassware, Crockery, Gas and Oil Fixtures, Plated Ware, Cutlery, etc., and whilst thanking their friends and customers for their liberal patronage in the past, they take great pleasure in recommending their successors to the good-will and consideration of the public.

Having purchased from C. W. GIBSON COMPANY their entire retail stock of Crockery, Glassware, Oil and Gas Fixtures, etc., contained in their warerooms at 108, 110 and 112 North Main street, Los Angeles, Cal., I respectfully request a continuance of the favors shown to my predecessors, which I shall endeavor to deserve by fair and liberal treatment of all my patrons.

I also wish to give notice that, finding much larger quantities in many lines on hand than I deem desirable for and necessary for my wants, I have decided to make important reductions in prices, so as to encourage a prompt disposal of all superfluous stock, and to make room for my large importations of new and fresh goods, now on the way.

All those in need of anything in my line are therefore requested to give me a call.

For Sale.

Two lots on south side of Sand street, at corner Prospect place, 60x130 feet. Price $1100.

Choice lot on west side of Boundry street, 120 feet south of cable road, 60x185, to a 20-foot alley; $1000.

540 acres of land between San Rafael and Providencia ranch; last season in wheat; surface water near; fine soil, suited to grapes, apricots, etc.; nice bearing orchards and vineyards adjoining. Price, for choice, $60 per acre in 20-acre lots, not acres, no roads; $40 per acre, one-third cash, balance in one and two years, at 8 per cent.

4000 acres of land in Tejunga rancho, at from $5 to $100 per acre; abundance of irrigation water, as 800 acres will have the first right to and all that is necessary for its use out of five-eighths of all the water of the ranch, the other three-eighths belonging to the Monte Vista settlement; $30 per acre of the price of the irrigable land will be left on the land to be expended in improving the irrigation facilities. A fine station of a commercial point on the southern Pacific railroad will be a mile established. There is on the land a beautiful nave in the foothills of 200 acres of irrigable land, surrounded by low hills, suitable for vines. This would make a beautiful place for a settlement.

Thousands of acres of land in the Antelope Valley, 15 lots of 160 acres, at from $1 50 to $15 per acre. The latter with irrigation water. Also a fine body of land for a colony, with town site, on the railroad.

Several hundred acres of land two miles northwest of Orange at from $15 to $75 per acre. Irrigation right, about $12 per acre, in addition.

Five acres of land in the city, being river lot 6 of the Hunter Highland View tract, with four-room house, large barn, windmill, etc., for $1700. Long front and would subdivide well.

Land adjoining Evergreen Cemetery, in half-acre lots, for $75, facing on 50-foot street.

Eighty acres in section 33, ten miles northwest of Los Angeles city, said to contain living water, at $1 per acre.

40 acres of choice land in Monte Vista tract, with water right equal to any in the tract; a line of iron pipe guaranteed on two sides of the square, at $40 per acre.

I am willing to sell property and mean business.

The Times.

Office—Temple, Main and New High.

WORK will be commenced immediately at the State Printing Office on the school books.

THE Downey Review has passed its first mile-stone and is still a-goin' in Los Nietos valley.

CORNMAN POST of the Grand Army in San Bernardino will rally round the festive bean-pot on Wednesday evening, 28th inst.

"OLD-FOGY newspapers" makes the subject of a complacent editorial in the San Diego Sun, in the course of which that journal polishes off an "esteemed contrumpery" in fine style.

THE first engine ever used on a mine at Calico has just been put up. Over $2,000,000 in bullion have been produced there, and no hoisting apparatus other than a common windlass has been used.

A FLORIDA paper says: "No Northern man who wants a winter home here, where he can build him a house and cultivate a grove, ought to buy more than five or ten acres—just what he can personally supervise."

"THE glacial Labrador current is annually protruding further and farther south," says a scientific authority. It appears to be making straight for New York, where a cold day is in store for the Democratic party.

ALTA CALIFORNIA: "It seems to be proved to the satisfaction of a Wyoming Grand Jury that the Rock Creek Chinese murdered themselves and then set fire to their houses to conceal the crime. The craft of the heathen is past all belief."

STATISTICS show that while the business failures of the first three-quarters of the year equal or exceed those of 1884, the amount of liabilities is decreased by nearly one-third. This is an encouraging state of affairs, and shows that business is nearing a rock-bottom.

THEY do say that the most disreputable ex-Governors in the country are Moses, of South Carolina, and St. John, of Kansas. Moses, of South Carolina, has just been sentenced to the penitentiary in Massachusetts for obtaining money under false pretenses, and St. John ought to be sentenced for obtaining votes under false pretenses.

THE WEEKLY MIRROR, published today, is a sterling paper, as usual. It contains the gist of all the Ohio election news, reports of the Downey Fair, Grand Jury report and the regular department, editorial, miscellaneous and literary matter. Reflecting people like the MIRROR.

The latest dispatches from Ohio do not materially change the result as previously announced. The Republicans have carried the State, the lowest estimate of Foraker's majority being over 18,000. They have also a majority on joint ballot in the Legislature, thus securing a Republican United States Senator. Owing to glaring frauds in Hamilton county, the exact complexion of the Legislature cannot be ascertained until an official count is had.

AS Napoleon at St. Helena was fond of demonstrating how he ought to have won at Waterloo, so Mr. Ferdinand Ward, the "Napoleon of finance," elaborately explains, from his Ludlow-street jail, that, by rights, he should have made everybody rich instead of poor, and that he is a victim of sharpers rather than a scoundrel himself. The mantle of the late lamented A. Ward seems to have fallen upon Mr. F. Ward.

THE Arizona Citizen climbs up on a bench and makes the following remark concerning the average "abrogine" of the sun-kissed land: "Men with good judgment and a day's experience of Apache character place no faith in any promise they make. They are shrewd, cunning, hypocritical, cowardly and cruel, and if a combination of these elements are productive of integrity, honor and fidelity, then we mistake their meaning."

AMUSEMENTS.

HAVERLY'S MINSTRELS.—The Grand Opera House was again packed last night, and the entertainment created as complete satisfaction as any of its predecessors. To-night promises to be a gala occasion. The management have reserved their strongest and best programme for the last two nights of their engagement. The "Pythian Knights' Parade" is a novel feature introducing a beautiful sword drill and intricate marching. This feature appeals to the "Knights of Pythias," and the Knights will attend to-night in a body in full regalia, headed by a band of music, and under the command of Sir Knight Jones, of Magnolia Division. Speaking of the parade of the Haverlys, the Pythian Triangle, the official organ of the Order on this coast, says:

The first part, which was unusually good, closed with the entrance of what might be called a drill corps of sixteen men and three officers, dressed in the full uniform of the Knights of Pythias, with helmets of the cork pattern. The first movement was the "Latin Cross," which was very effectively and beautifully executed. Then came the "Hollow Square," easily and prettily rendered. The sword exercises followed, no commands being given, and the manner in which they handled their weapons was very creditable, more particularly the movements of "Sir Knights, Kneel," and "Rest on Swords," which were particularly good, and elicited considerable applause. The curtain went down on the formation of the "Triangle." The execution of the figures was accompanied with a marching song, composed by James Germon, one of the troupe, and set to music by the celebrated English composer Schlisffarth. On the whole, the "Parade" is well worth seeing, as it is a picture of ease, grace and precision, and the marching is much superior to anything yet witnessed.

To-night, for the first time in this city, the smallest acrobat in the world will be presented—the smallest of the wonderful Cragg Family, known as Baby Cragg. He accomplishes with as much ease as the older ones feats of remarkable daring. As this splendid company remains but two nights longer, it is only fair to presume that standing-room will be at a premium.

The New Special Delivery.

Postmaster Green is becoming better and better pleased with the new immediate delivery system, as it settles into its regular groove. The average number of these letters delivered is about ten a day, and the average time in delivering is about seventeen and one-quarter minutes. The postmaster thinks that better time is made generally than when a District Messenger is called into requisition, and the expense is only half as much.

Found Dead.

At 9 o'clock last evening a Mexican, about 45 years of age, named Francisco Salas, was found dead in a cabin on Georgia street. Nobody was with him at the time of his death, and it is supposed that he died of asthma, as he had been suffering from that malady. The remains were taken in charge by Foncet & Orr. An inquest will be held to-day.

THE OHIO ELECTION.

Cincinnati Wildly Excited Over the Frauds.

STERN THREATS OF SUMMARY JUSTICE.

No Change in the Result Already Announced—Foraker's Views of the Great Victory.

Associated Press Dispatches to The Times.

CINCINNATI, Oct. 15.—There can be no absolute certainty about the result of Tuesday's election in Hamilton county until an official count is made. The vote in two precincts of the Nineteenth Ward, whose counting was not finished last night, has now been counted and the result on Governor, with one country precinct missing, which in 1884 gave seventeen Republican majority, stands thus: Governor—Hoadly, 33,667; Foraker, 33,362; Leonard, 1930; Hoadly's plurality 305. The returns are far from complete on the Legislative ticket.

The Times-Star estimates that the average vote on Republican members of the Legislature exceeds Foraker's vote by 1015. If that rate is maintained it would elect a Republican delegation, except Robert Harlan. Nothing can be determined regarding this contingency except an official count. Since the list of counties claimed by the Republicans for representatives was announced yesterday there have been two changes, one in Hancock and the other in Knox county. The vote in Knox is close. There is also a doubt about the result in Williams county. The figures from the State, exclusive of Hamilton county, indicate a plurality of from 19,000 to 20,000 for Foraker.

FORAKER'S OPINION OF THE RESULT.

CINCINNATI, Oct. 15.—Judge Foraker, Governor-elect, being asked to-day what he regarded as the leading motives that led to the result in Ohio, said: "First—The Republicans regarded it important that a decisive expression should be given on the first election after the beginning of a Democratic national administration. Second—A determination to give an expression in favor of a free ballot and a fair count in all our elections. Third—Distrust concerning the free trade tendencies of the Democratic party, coupled with a recognition of the necessity of maintaining Republican ascendency in the United States Senate. Fourth—Disgust with the Democratic State administration in Ohio, notably the election of the last Senator and the extravagance of the last Legislature. Fifth—A wish to have the liquor traffic regulated and taxed as a practical method of dealing with the subject, and dissatisfaction with the Democratic position of license, which is impracticable."

SOME LATER RETURNS.

CINCINNATI, Oct. 15.—The following is a portion of a table by counties of the vote on Foraker and Hoadly: Ashtabula—Foraker's plurality 3803; Geauga—Foraker, 1843; Holmes—Hoadly, 1900; Medina—Foraker, 1059; Perry—Hoadly, 100. In Richland county 48 districts of about 100 each gave Foraker 1176, instead of 1000, as first reported. Foraker's plurality is now 52,796, Hoadly's plurality 33,261; Foraker's net plurality, 19,535. Four counties, Brown, Carroll, Hamilton and Ottawa, are to be heard from. The aggregate vote of Brown, Carroll and Ottawa counties last year showed a Democratic majority of 2009.

THE CINCINNATI FRAUDS.

CINCINNATI, Oct. 15.—The irregularities and alleged gross frauds in connection with Tuesday's election in this city have made a most profound impression on all classes of well-meaning people. The palpable crime of putting more than two hundred votes in one box in excess of the registration for that precinct has aroused the general indignation, especially in the German quarters of the city. A little meeting, quite private, was held last night to discuss plans. Fiery talk was had, and a general understanding reached that steps would be taken to-day for calling an indignation meeting. The matter was discussed to-day, but no formal call was made. Notwithstanding this, there was a large gathering about Turner Hall to-night, and an application was made for the hall for the purpose of holding an indignation meeting. The proprietor took advice and refused to open the hall.

THREATS OF SUMMARY JUSTICE.

The men lingered about the place, some uttering the most violent denunciations of the leaders, whom they regarded as responsible for the violations of the law, and counselling summary measures. Others argued in favor of moderation, and urged that the fullest possible support be given to the Committee of One Hundred, which is now at work preparing for the discovery and prosecution of offenders against the law. As there was no opportunity to hold a meeting, the crowds finally dispersed. The police authorities had notice of the proposed indignation meeting, and fearing that it would result as did the one held at Music Hall to denounce the Berner trial, when the mob burned the front from the building, large forces and used all precautions to meet such a result. The holding of an indignation meeting has been discouraged by Mayor Smith and by all who favor peace, but there is a widespread feeling that some action shall be taken to preserve the purity of elections.

FORAKER CONGRATULATED.

CINCINNATI, Oct. 15.—Judge Foraker was to-day compelled to vacate his office and seek a secluded place where he could pay some attention to the mass of correspondence which has accumulated during the past three days. Among the many gentlemen who sent him telegrams of congratulation to-day are the following: Andrew D. White, of Birmingham, England; United States Senators Mahone and Aldrich; John S. Wise, of Virginia; John L. Gibbert, of New York; Chester S. Cole, Chairman of the New York State Republican Committee; J. H. Manley, of Augusta, Me.; John B. Lynch, of Mississippi; George Woods, of Oregon, and Ira M. Davenport, Republican candidate for Governor of New York.

FORAKER'S PLURALITY—THE LEGISLATURE.

CINCINNATI, Oct. 15.—Admitting that Hamilton county is about even and that Brown and Ottawa will give Hoadly a majority equal to the majority for Cleveland last year, Foraker's plurality will be 18,579. Very little now can be said regarding the Legislature. The Republicans claim a representative in Hardin county and admit the election of a Democratic representative in Stark county. Otherwise the situation remains unchanged.

Wheat From India—Business Depression and Free Trade.

LONDON, Oct. 15.—The fall in exchanges and the low price of silver are stimulating the exportation of wheat from India. Enormous shipments are pending. Vessels have already been chartered for the shipment of 100,000 tons.

NUDGE OBJECTS TO NUDE MODELS.

John Ruskin, replying to an appeal in favor of the use and study of nude female models, says that an artist can do much better without them than with them.

DEPRESSION IN TRADE.

The Liverpool Chamber of Commerce reports to the Royal Commission on trade depression that there has been a gradual decline in trade during the past ten years, and the number of vessels is largely in excess of the demand. The Chamber approves free trade and urges foreign countries to abandon the bounty system, adding that if they refuse, the British government must impose duties upon goods from such countries.

The Woman Suffragists.

MINNEAPOLIS, Minn., Oct. 15.—The American Woman Suffrage Association adjourned to-day, after a three days successful session. The Church of the Redeemer was crowded, many being unable to get standing room. Fifteen States and Territories were represented. Mr. Dunway, of Oregon; Mrs. Julia Ward Howe, of Newport; Rev. Ada C. Bowles, Lucy Stone and H. B. Blackwell, of Boston, and many others, made addresses. Resolutions were adopted defining the principles of the association, and laying out a plan of work.

Gone to Canada, Probably.

PORTLAND, Me., Oct. 15.—The Argus states that Hugh Thompson, cashier of the Grand Trunk freight department in this city, left town about a month ago to be gone on a vacation for two weeks. His did not return, and something wrong was suspected. His books were overhauled, and he was found to be several thousand dollars short in his accounts. It is supposed that he lost large sums in betting on the Genesta-Puritan yacht race and took money for that purpose. It is not known where Thompson is.

The Wheat Crop in France.

PARIS, Oct. 15.—The French official wheat statistics are as follows: Area cultivated, 7,000,000 hectares, producing 85,000,000 quintals of wheat; average yield per hectare, 12 1-16 quintals, against 13¼ last year.

Bay District Park Races.

SAN FRANCISCO, Oct. 15.—The roadsters' race, purse $600, at Bay District Park today, was won by Grover C., who took the second, fourth and fifth heats. Blaine took the first heat. C. H. C. third heat. Time, 2:23¼, 2:23½, 2:24¼, 2:28¼, 2:34¼.

DUST TO DUST.

Impressive Obsequies of the Dead Cardinal.

NEW YORK, Oct. 15.—The watch of the members of the societies of St. Vincent de Paul, who guarded the body of Cardinal McCloskey in the great cathedral last evening, came to end this morning. The first beams of the morning sun had hardly gilded the steeples of the churches when a procession of priests, with uncovered heads, entered the cathedral and knelt before the altar. Prayers for the opening of the new day, the day upon which the body of America's first cardinal was to be committed to the earth, were said, and then the priests marched slowly down the center aisle, on either side of the catafalque, and returned to the sacristy. Two hundred policemen kept the crowd, that had assembled shortly after 8 o'clock, in order. The doors of the cathedral were opened at 8:45 a. m. and the throng invited to enter. As the hour for beginning the services was reached, the crush without the cathedral became great. The streets for several squares in every direction were blocked with carriages and masses of people. The police had all they could do to preserve order.

WITHIN THE CATHEDRAL.

The scene within the cathedral was grand and impressive. The dead body of the Cardinal had, during the night, been placed in the mahogany coffin which had been prepared for its reception. A heavy drapery of purple velvet, bordered with fringe hung about the coffin. Rods of gold, extending the entire length of the coffin, ornamented the sides. The body has been so placed that the head of the dead prelate was raised above the level of the coffin and was easily seen from below. The pews and aisles were crowded with people. Five thousand were gathered in the cathedral before 10 o'clock.

THE SERVICES.

While the throng was awaiting the opening of the solemn requiem to begin, the Papal Zouaves in gold lace and bright uniforms, marched down the center aisle and took up their position about the catafalque. A moment later the doors of the sacristy were flung open and a long procession of white robed priests and acolytes filed down the steps to seats directly in front of the high altar. There was a moment of hushed expectancy, and then the stillness was broken by the priests as they arose from the side of the dead. Now two acolytes, bearing lighted candles in their hands, followed by another, the procession of priests, came slowly out from the sacristy and bowed before the high altar. Then came the Bishops, in their somber-hued garments, and, finally, the Archbishop and Archbishops. When all was ready, the choir chanted a requiem mass. The choir numbered over one hundred voices. Archbishop Corrigan was celebrant of the pontifical mass.

After the mass Archbishop Gibbons, of Baltimore, preached the funeral sermon. The text was Ecclesiastes iv, 5.

THE FINAL RITES.

At the conclusion of the sermon preparations were made for the concluding rites by the Archbishop of New York, assisted by the Archbishop of Baltimore, the Bishops of the diocese, priests and clergy. The latter, in their robes of office, formed in the following order: Acolytes, Archbishop Corrigan, Archbishop Gibbons, Bishops, priests and clergy. The procession moved from the catafalque by the altar, where the body of Cardinal McCloskey was placed, to the center aisle, and then the priests marched slowly down the center aisle, on either side of the catafalque, and returned to the sacristy. FRIDAY, OCTOBER 16, 1885.

The Grand Jury Report.

One of the most thorough-going and plain-speaking public documents of the kind ever issued in the county is the report of the Grand Jury, presented yesterday to Judge Cheney's department of the Superior Court, and printed in full on this page. The English of the report is something frightful in spots, but that defect does not by any means invalidate the report; its statements of fgots, and not its rhetoric, are the points for consideration. The diction is not perfect, but the language used "strikes straight from the shoulder," and means business.

The body appears to have been perfectly fearless and impartial in its strictures and expositions, and has laid about it, right and left, with an unsparing hand. While no startling revelations beyond the Miles defalcation are made, many serious abuses in county and municipal affairs have been unearthed and pointed out, and remedies suggested. The Grand Jury is entitled to credit for the courage, impartiality and thoroughness of its several inquisitions. The result of their work must inevitably redound to the substantial good of the people whose interests are involved, provided the exposures and recommendations in the report are acted upon vigorously and effectively, and the necessary remedies applied. We commend the report in all its details to the particular attention of our readers. It contains some "mighty interestin' reading."

The Public Lands.

A statement of the disposition of the public lands in the United States and Territories for the fiscal year ending June 30th, last, has been prepared by Commissioner Sparks, of the General Land Office, and has been given to the press. The following table has been compiled from it:

As to the manner of disposal, an analysis made by the World's Washington correspondent shows that the number of original homestead entries was 50,877, including 7,415,885 acres, from which the receipts were $731,843. The number of final homestead entries was 22,066, including 3,032,679 acres, from which the receipts were $105,152. The number of original timber-culture entries was 30,998, including 4,755,005 acres, from which the receipts were $425,420. The number of final timber-culture entries was 750, including 90,300 acres, from which the fees were $2764.

The total number of acres taken under railroad selections was 3,558,914, made up as follows (fractions omitted): Alabama, 33,198; Arizona, 133,052; California, 376,445; Colorado, 14,252; Dakota, 790,693; Iowa, 6104; Kansas, 195,046; Louisiana, 19,887; Minnesota, 108,217; Montana, 793,459; Nebraska, 178,039; Nevada, 60,612; Oregon, 245,386; Utah, 17,123; Washington Territory, 535,216; Wisconsin, 51,819.

The grand total of patents issued (30,113,663 acres) includes 881,850 acres of Indian lands. This is a decrease in the number of acres disposed of as compared with the year 1884 of 6,585,656, but as compared with the year 1883 it is an increase of 683,630 acres. From sales of Indian lands $933,483 was realized, making the total receipts from all sales of lands $7,686,114, a decrease compared with the receipts during 1884 of $4,159,532, and as compared with the year 1883 a decrease of $3,086,107.

The public domain is fast being gobbled up by railroads, and the number of acres disposed of must, therefore, necessarily decrease from year to year. The government should carefully guard what remains, and keep it in trust for actual settlers.

Chinese Colonies.

There are indications that the Atlantic coast may have some larger experience in the matter of Chinese immigration than it has heretofore had. At a recent secret meeting in San Francisco, a committee of six was appointed to visit the various industrial centers throughout the country for the purpose of establishing Chinese colonies. One of this committee, Lee Wah, an intelligent Chinaman, has reached the Connellsville coke region, in Pennsylvania, and is negotiating for the employment of his countrymen in that district. Very fair success is reported as having attended his efforts at Cincinnati and other points that he has visited. The movement has grown out of the late Wyoming massacre, and the tendency will be towards lessening the centralization of the Chinese upon this coast. The East may yet find that while the objection to the individual Chinaman is not so great as it might be, the massing of Chinese in communities presents many serious objections, the result of which may not be one of the most pleasing problems for consideration. One effect may be, however, a better understanding between the people of the Eastern States and those of the Pacific Coast in regard to the evils of an unrestricted coolie immigration.

GRAND JURY REPORT.

Public Matters Handled Without Gloves.

A LIVELY BREEZE FOR "WINDY SMITH,"

And Several Other Functionaries Keel-Hauled —The Supervisors Censured for Loose Business Methods.

To the Hon. Wm. A. Cheney, Judge of Department 1 of the Superior Court of Los Angeles County, State of California—

SIR: The Grand Jury, convened by your Honor, September 14th, beg leave, respectfully, to make this, our final report of our transactions. Our session has necessarily been prolonged, from the fact of having examined all the books and records of the county and city for the preceding three years, in which investigation we have had the cordial consent of your Honor.

The Pomona arson, to which your Honor called our especial attention, we have been unable to procure sufficient evidence to indict the really guilty party, although the Grand Jury are firmly convinced the guilty party is still at large.

ASSESSOR.

We have examined the books of ex-Auditor Andronica Sepulveda, and find them kept in the most incompetent manner; frequent balances are omitted, and officials were not required to make monthly settlements, according to law. Mistakes were made in footing up the assessment roll. The aths of the warrant books of 1883 and 1884, heretofore reported missing, have since been found.

The present County Auditor's mode of book-keeping is an improvement. The law requires that he should furnish a financial statement of the county, and present an estimate for the yearly tax levy to the Board of Supervisors, and keep his books, instead of which the tax payers of Los Angeles county are blessed with a very useful person who does the business for most of the county officials, and his bills are all allowed by the Supervisors. We present a few bills as a sample of what is constantly occurring, to-wit: Bill of Aaron Smith, approved by A. A. Montaño, Auditor, "for semi-annual statement of financial condition," $120. We find his demand against the county for services in the Tax Collector's office from August 10th to September 5th, 37 days (?), $111. We also find his demand against the county from May 4th to June 15th, 31 days (?), at $3, amounting to $93, and 24 days (?), extra work, same month, $72. Then, again, this useful person worked from June 4th to July 2d, 29 days, at $4; amount, $116; extra days, same month, 26 (?), amounting to $104, and then the Supervisors did not consider him well paid, and they allowed him $63 extra for those days at $1 per day. At present we find the County Auditor's office subsidized with ten deputies, and several, we believe, incompetent for such positions.

ASSESSOR.

We have examined the County Assessor's books and office and find everything in good order and monies properly accounted for.

SHERIFF.

We have examined the books in the Sheriff's office and find them properly kept and the fees deposited regularly. There ought to be a better record kept of prisoners committed, and, if discharged before sentence expires, to so state on the record, and if any part of said fine was paid, to so state.

COUNTY CORONER.

Since our last partial report, the Coroner has presented the Grand Jury with the Treasurer's receipts for all monies of deceased persons which came into his hands. He had omitted properly entering it upon his books only, as the money had been paid to the Treasurer.

COUNTY CLERK.

We have examined the books of ex-County Clerk Potts and find that he has, during the month of January, 1885, overpaid his account $56, and we recommend that said sum be refunded to him. In all other matters appertaining to his office we find him often slow in making settlements, but correct.

The books and records of the present County Clerk are correct and painstaking and monies are promptly deposited.

Your Grand Jury believe the papers in the County Clerk's office are not secure enough from the reach of evil-disposed persons, who might abstract documents to the great injury of interested persons, and recommend the Supervisors to remedy this evil.

LICENSE COLLECTOR.

We have examined the License Collector (A. W. Ryan)'s accounts and find them correct.

TAX COLLECTOR.

The present incumbent, Eli Hammond's, accounts are correct, and the office is properly conducted. The Grand Jury recommend that the Supervisors pass an ordinance requiring the Tax Collector to make weekly settlements with the County Treasurer during the time of collecting taxes. The Tax Collector retaining $250 on $300,000 before settling with the Treasurer, as heretofore done, we deem unjust. In the accounts of the Tax Collector, Ass Ellis, for 1883 and 1884 have been carefully examined and found correct. We recommend hereafter that each Tax Collector retiring from office leave his cash-book in the office of the County Superintendent of Schools.

The legislative power granted to the Board of Education—that is to say, the financial part thereof — ought to be amended by our next Legislature. As it is now, the School Superintendent, Mr. Hinton, is a one-man power. Neither the Treasurer nor Auditor are a check to his action. An account of cash received ought to be kept with each school district separate. The expenses of this department are constantly increasing, and, while your Grand Jury believe in the inestimable worth not free public schools, we are of the opinion that the financial matters ought to be managed by the body furnishing the same. We find Mr. Hinton's office subsidized more than the law would ordinarily allow, and we protest against such action.

COUNTY TREASURER.

We have examined the County Treasurer's books and found them correct. Sections 3841, 3842, 3843 and 3856, essential for the collection of poll taxes, have been neglected, and we believe said neglect has caused quite a loss to the school fund and should be remedied at once, and he should be a resident of the county seat, which the present incumbent of that office is not.

BOARD OF SUPERVISORS.

Your Grand Jury find a great many errors committed and a great looseness in the management of the affairs of the county by the Board of Supervisors. Bills are audited and paid apparently without examination, many of which are extortionate. We find the affairs of this county not running in the interest of the people and taxpayers, but in a haphazard, loose manner. As a sample of some of the accounts presented and allowed, we will enumerate the following: For painting fifteen books at $1.25, carried out, $25. For printing fifteen books at $1.40, carried out, $25. On a warrant issued from the city court they allow the Sheriff fee for 620 miles traveled searching for prisoner, $124; bringing prisoner, $120.50; railroad fare, $21.70. We find in order to favor bills within contract when 2000 receipts are actually ordered, 4000 are charged and allowed. The expenses of the trip to Sacramento to State Board of Equalization for Assessor Hilderrain, W. J. Smith, the District Attorney and Supervisors, show well enough how the affairs of the county are managed.

We desire to see an end to this unnecessary squandering of the people's money, and demand of the Board of Supervisors an honest and economical administration of the public affairs of this county. We find our Supervisors, when engaged as ex-officio Road Commissioners, drawing their salary as such, which is contrary to the road law.

Your Grand Jury desire to call your Honor's attention to the insufficiency of some of our county officials' bonds. We make especial mention of one party as bondsman for several thousand dollars, whose assessment for county purposes is $13,340, and for city purposes is $16,615, and same property is mortgaged for $20,300.

MUNICIPAL AFFAIRS.

The docket of the Mayor's Court and the Chief of Police record were not found strictly in accordance with the city charter. The Mayor, as head of the city government, should see that the ordinances are enforced properly.

CITY COUNCIL.

This legislative body was created by legislative act in 1878, granting a charter to the city of Los Angeles. By terms of said charter, no money in excess of $300 can be paid out without a written contract. This clause was put in the charter to protect the city from corrupt contractors, and to stop the Council from squandering the public funds wholesale. This law is frequently ignored by the present City Council, and such acts are clearly illegal.

Their especial attention is called to such acts; and also in the matter of letting contracts for public improvements (such as the City Hall) greater care should be exercised, and mistakes avoided.

THE NEXT COUNCILMEN.

The people should exercise great care in selecting the members of the City Council in December next, as very important matters will be before that body during the next year.

POLICE DEPARTMENT.

We have found perfect harmony existing in this department and the force effective. We call their attention to the sidewalk ordinance not being properly enforced.

We have examined fully the $2650 matter of Jacob Kuhrts, and find he paid W. E. Rogers that amount through the Farmers' and Merchants' bank, and that he came legally in possession of said warrant from the city. We believe a councilman acting to the best of his ability for the city should be protected.

CITY BRIDGES.

The Grand Jury have examined the bridges and find the Central Railroad bridge across the river on Downey avenue and the same company's bridge across the Arroyo de Los Positos on Aliso street very defective, and ought to be attended to at once.

We further recommend that the Southern Pacific and Los Angeles and San Gabriel Valley Railroad Companies and City Council be requested to build an elevated bridge on Buena Vista street, so their cars may pass under said bridge, and thus avoid some serious accident.

CITY BOARD OF EDUCATION.

We have examined the books of the City Board of Education, and find the expense great, and believe the Board should exercise more economy in its management.

We also find that the secretaries of said Board for 1883, 1884 and 1885 are allowed $50 per month as such, which is against the law. The salary of Superintendent's clerk is also illegal, and must be returned.

FIRE DEPARTMENT.

Taxes are collected annually for the purpose of the fire department, and it has been generally held by the Board of Underwriters that the volunteer fire department of Los Angeles was one of the best in the State. Your Grand Jury now find dissension existing in the department and believe it criminal neglect to not remedy this matter at once.

HEALTH DEPARTMENT.

To this body we merely repeat that we must call their public nuisances, and now call their attention to the fact that defective sewers of inferior material, without proper fall and necessary outlets, are only cesspools underground. The Second street, near the foundry of M. S. Baker, there is a nuisance.

Your Grand Jury consider the donation of seven hundred and fifty dollars, voted by the Board of Supervisors, and the five hundred dollars appropriated by the City Council for the Citizens' Committee, to be unjust to the taxpayers and entirely without the sanction of law, as can be seen by referring to chapter 75, sections 5, 6 and 7, Statutes of California for 1883. We do, therefore, enter our protest against the action of the Supervisors and Council in this particular, and request that the sums thus illegally appropriated be refunded to the treasuries of the city and county.

We herewith present to your honorable Court statements and abstracts of all the books of the county to date, that they may be deposited, and save a great deal of trouble to the next Grand Jury in investigating the affairs of the county.

In parting with your honorable Court, the Grand Jury desire to express their thanks to Sheriff Gard for the prompt assistance rendered us on all occasions; to the District Attorney, for-his assistance; and to your Honor, for the able, firm and conscientious manner in which you have assisted us in the discharge of our duties.

Here and there, in the future, your Honor will call the attention of Grand Jurors to the investigations of the affairs, and that your offices may not be amenable to law for wrongs committed. Your Honor, continuing in this matter in the manner in which we have received your aid and encouragement, will eventually redound to the public good, and you will receive the confidence and gratitude of a discerning public in the highest degree.

Respectfully submitted.

Encourage Those Industries

That increase the value of your real estate. Every person who has a dollar in land, or buildings, should know that in the petroleum industries of our county lie the future greatness of this city. The Oil Burning and Supply Company, with their Edwards oil burners, are increasing the demand for our petroleum product, and giving to the public a fuel unequaled by any other. Be wise, therefore, and buy an Edwards oil burner.

Why a Workingman Should Buy an Edwards Oil Burner.

It is cheaper than any other fuel.
It makes a quicker and better fire.
It saves you buying a new stove.
It saves splitting kindling, building fires and packing out ashes. And last, but not least,
It makes a smiling wife to greet you on your return home from your day's work.

HOME MANUFACTURES.

Local Announcements of Leading Los Angeles Industries.

Los Angeles Cracker Company.

The Los Angeles Cracker Company, corner of Aliso street and Alameda road, has entered upon its third year under most favorable auspices. All kinds of crackers and cakes are manufactured, and the quality is now better than the best imported. The Cracker Company is a local enterprise which should have the support of every one. It is thoroughly deserving. Wisner & Co. are the proprietors.

Los Angeles Soap Company.

The Los Angeles Soap Factory is one of the oldest manufacturing establishments in the southern portion of the State, having been started about a quarter of a century ago. It has been under the management of the present proprietors, Messrs. Forchmann & Barlow, twelve years, and they have brought it up to a high standard. Their toilet and laundry soaps are famous all over the southern country, and their borax soap is primarily in demand by housekeepers. They deal in caustic soda, sal soda, soda ash, potash, rosin, tallow, hides, pelts, skins and wool. They also manufacture whale oil soap, which has been tried and found superior for the most prominent fruit growers of Southern California, and has proved a most effectual insecticide. The office and works of the Soap Company are located at 40 to 62 Banning street and 307 First street.

Los Angeles Soda Works.

The Los Angeles Soda Works, W. H. Stoll & Co., proprietors, No. 107 Bansevain street, is one of the oldest manufactories in Los Angeles, having been in existence eighteen years. They manufacture soda water, sarsaparilla, ginger ale, mineral waters, champagne cider and all kinds of syrups. Their specialty, however, is the famous "Ocean Soda," which for fine flavor and purity is equal, if not superior to any summer drink ever before introduced in Los Angeles, and the demand for it this season has been immense. Messrs. Stoll & Co. ship their goods to all portions of Southern California, and have a large trade in grown rapidly. Orders from any part of the city and country will be promptly attended to and satisfaction guaranteed.

Climax Windmill.

The Climax windmill is the invention of J. R. Millard, a Los Angeles gentleman. It was patented December 9, 1884. The owner claims for it that it will run in less wind, is much stronger built, less complicated and thirty-three per cent cheaper than any Eastern mill in the market. It is highly recommended by all who have tried it, including each well-known resident of Wm. Lacy, O. A. Dubinson and M. L. Wicks, of Los Angeles. Mr. Millard also manufactures at his factory, 34 Second street, iron and wood tanks and all kinds of pumps.

Globe Coffee and Spice Mills.

The Globe Coffee and Spice Mills are located on Aliso avenue. This establishment now has long been noted for the excellent quality of its coffee and spices, and since F. L. Jones, the present proprietor, assumed charge, the business of the concern has rapidly increased. The specialty of the Globe Mills is its "Golden Gate" coffee. Once tried, no other brand will be used. The proprietor is preparing to make substantial improvements to his machinery. All orders from the country will promptly be attended to.

The Troy Shirt Factory.

The Troy Shirt Factory, Room 34, Schumacher block, is the leading establishment of the kind south of the Tehachapi. It has been in operation for about two years, its specialty being custom made goods, or in other words white shirts made directly to order. The business has grown rapidly, and its patrons are of the very best class in this city. The advantages of custom made goods over those purchased ready made will be apparent to all, and as nothing but the best materials are used by Mr. Selligman, the proprietor, in the end, as will be seen, a considerable saving is effected. A visit to Room 34 is solicited. Another excellent feature of the Troy factory is the fact that only white labor is employed. No Chinese have any hand in the work, which is all given to white girls.

Steam Carpet-Beating Company.

The Pioneer Steam Carpet-Beating Company, Seventh street, near Main, telephone No. 337, F. O. Box 1,000, Messrs. Bisbee, Sharp & Co., the firm being Robert Sharp and A. H. Fleming. The advantages of thoroughly and effectually cleansing carpets in this company are many, and much of the disagreeable work of the individual carpet and house-cleaning may be avoided. The method employed has many advantages, of which the principal are the thorough cleansing of the homes of dust and dirt, moths, moth eggs and other vermin, and the fact that it is done in a great saving in expense, amounting often to as much as 50 per cent. The success of the Pioneer Steam Carpet-Beating Company is gratifying, and they are certainly well deserving of the patronage of the public.

Upholstering and Mattress Factory

The Los Angeles Upholstery and Mattress Factory is located at the corner of Seventh and Los Angeles streets. The proprietor, John Slosser, has long been in business in this city, and has built up a large trade. The factory turns out mattresses and upholstered work of every description, parlor sets, easy chairs, etc. Mr. Slosser has special facilities for filling large orders for hotels, hospitals, asylums, and for special advantages in dealing with this house manufactory in that while just as good as articles in furniture can be imported, prices are much lower. In every respect, it will be found advantageous to send orders to this house.

IN THE SUPERIOR COURT

Of the State of California, in and for the County of Los Angeles.

Samuel Wakeling, Plaintiff, vs. Della Wakeling, Defendant.

Action brought in the Superior Court of the State of California, in and for the County of Los Angeles, and the Complaint filed in said County of Los Angeles, in the office of the Clerk of said Superior Court.

THE PEOPLE OF THE STATE OF CALIFORNIA send greeting to Della Wakeling, Defendant:

You are hereby required to appear in an action brought against you by the above-named plaintiff, in the Superior Court of the State of California, in and for the County of Los Angeles, and the Complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons, if served within this county; or, if served elsewhere, within thirty days, or judgment will be taken against you according to the prayer of said complaint.

The said action is brought to obtain a decree dissolving the bonds of matrimony existing between the plaintiff and defendant, for such other and further relief as may be equitable, and for costs of suit.

The ground upon which said decree is claimed is that the defendant for more than one year before the institution of this suit willfully and without cause deserted and abandoned plaintiff, and continued to live separate and apart from him, without cause and against his will and consent. Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the above complaint as above required, the said plaintiff will apply to the Court for the relief therein demanded.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Los Angeles, this 3d day of September, in the year of our Lord one thousand eight hundred and eighty-five.

A Splendid Offer.

In order to increase the already very large circulation of the Los Angeles WEEKLY MIRROR, the publishers have decided to offer as a premium to each yearly subscriber who pays $2, a copy of Stephenson's map of the county of Los Angeles and parts of San Bernardino and San Diego counties. The size of this map is 23x30. It was issued this year, and is the most accurate map of this section ever published. It shows all the townships, sections, cities, towns and hamlets, rivers, creeks, mountains, harbors, large ranches, mines, railroads, including the Atlantic and Pacific and its proposed routes, and has a thousand other features of interest and value to residents of Southern California. It is alone well worth the subscription price and is the finest premium ever offered by any paper in the State. Taken in connection with the fifty-two issues of the MIRROR, an eight-page paper with over sixty long columns of reading matter of the choicest kind, it will readily be seen that this is an opportunity which rarely occurs. Avail yourselves of it. The maps will be mailed to any address on receipt of $2.

THE FIRE DEPARTMENT.

Messrs. Brown and Holbrook, special committee appointed to inspect needs of the fire department, reported that Confidence Engine Company No. 2 needs eleven feet of 4½-inch spiral suction hose, one 12-inch gong, one 1¼-inch blunderbuss, one 13-inch chemical, and a covering for the hose torn-table. Vigilance Hook and Ladder Company needs two reflecting lamps, a pair of side collars, two Babcock fire extinguishers and some repairs on harness. Hook and Ladder Company wants an electric light in front of the house; one rubber blunderbuss and automatic door-openers. Morris Vineyard Hose Company, a flourishing young organization which deserves encouragement from Council, housed their apparatus yesterday in the just finished new building. All they wish is 250 feet of hose. Report of the number of fire hydrants corner Hill and California streets, corner Hill and Pacheco, Hill and Pine, Twelfth and Olive, East Los Angeles Hose Company wish their cart painted, and demand more fire hydrants in their district. Committee recommends that all above items be supplied; also that Council provide a fire-alarm telegraph and a paid fire department. Postponed one week.

PETITIONS.

Of Margaret La Chappelle, for return of over-paid taxes. Committee on Finance.

Of O. W. Crane, for return of over-paid taxes. Committee on Finance.

THE BOARD OF EDUCATION.

Of Board of Education stated that the city schools are already crowded; in some cases over-crowded. The Board has already had to rent two extra rooms. The number of children applying for admission will doubtless increase steadily, especially if there is such immigration this winter as is anticipated. To provide accommodations for the children already here and wishing to attend, will require the erection of a building near the center of the city, and addition of a room to the Boyle Heights house. It has been the understanding that from the next payment of $25,000 due from the county on the Central school lot, the city shall receive $13,000. If Council will waive for the present this claim, the Board will make the above improvements. Committee on Finance.

On motion of Day ordered that Chas. Vender Kulen be paid $30 a month rent for Morris Vineyard hose house, and City Attorney be requested to draft lease.

Committee on Lands recommended granting deed to Geo. F. Rotsler as prayed for. Adopted.

Also deed to W. J. Phillips, in accordance with special provisions for exchange. Postponed one week.

Committee on Sewers reported pay roll of men employed on sewers for week ending October 10 amounting to $33.75. Referred to the Committee on Finance.

Recommend that check be returned to W. J. Neely and construction of Requena street sewer postponed until after the decision of the Supreme Court relative to the Vrooman Act. Adopted.

FAIR EXHIBITS.

Notes on the Industrial Display at the County Fair.

The following notes on the industrial exhibits at the County Fair will be found of interest:

SCHUMACHER'S EXHIBIT OF PHOTOGRAPHS.

The blue ribbon, or first premium, was yesterday awarded to F. G. Schumacher for the finest display of photographs at the Fair. Mr. Schumacher's exhibit is well arranged, and is decidedly a feature of the exhibition. It comprises a large number of cabinet photographs, and the artistic character of the work will immediately attract attention. Mr. Schumacher was a pupil of the famous photographing house in San Francisco, Bradley & Rulofson, and has gained a high reputation here for fine work. His gallery in the Schumacher block, opposite the postoffice, is well worthy of a visit. During the past two years he has built up a business second to none in the city.

FINE SHOWING OF THOROUGHBRED POULTRY.

Mention was made in yesterday's TIMES of the splendid display of thoroughbred poultry made at the county fair at Downey. The enterprise was started in this city about three years ago and was then known as the Glen Wood poultry yards, but somewhat since Messrs. Whitney & Williams secured five acres at Wilmington and have established there the model poultry yards of Southern California, if not of the State. The wonderful improvement in poultry stock will impress everyone who looks over this fine exhibit at Downey, which will also appear at the District Fair next week. A brief review of the showing made will be of interest. First comes a magnificent pair of Langshans from China, which cost $80. The score made by the cock was 96 and of the hen 95½ points. The second scoop contains choice Brahmas. The third contains Black Cochins—Black Joe, who scored 282½ points, and his beautiful mate. The fourth contains handsome Buff Cochins and Partridge Cochins. The fifth contains Wyandotte fowls which took the first premium at the St. Louis Fair. The sixth pure Brown Leghorns—score, 94½ points. The seventh Silver Spangled and Golden Spangled Polish. The eighth Silver Spangled Hamburgs, the cock Silver King having made a very high score and the hen Dottie Dimple securing ninety-seven points. The ninth, East India Eagle Heads, imported from England at great expense. The remaining coops contain Chinese young stock and a pair of Silver Duck-wing bantams. The exhibit is unquestionably one of the finest ever made in the State, and is well worth seeing. In addition Mr. Whitney exhibits the Whitney patent brooder, which seems to solve the question how to raise chickens hatched by an incubator. The heat is furnished by a lamp beneath, and is so constructed that is furnishes plenty of warmth, while fresh air is constantly passing through. The Oakland Hot Water Self-regulating Incubator has given great satisfaction wherever used. It is claimed that it has produced a larger hatching than any other machine. Taken altogether, Mr. Whitney's exhibit is most interesting, and merits a careful examination at the Fair next week.

LUITWEILER'S EXHIBIT—AGRICULTURAL IMPLEMENTS, WAGONS AND CARRIAGES.

By far the largest and finest display of agricultural implements, wagons, carriages, etc., made at the county fair comes from the establishment of S. W. Luitweiler, of this city. The exhibit comprises and entry for the best display of California-made agricultural machinery exhibited by one house; also, best horse rake, the Royal; best mowing machine, California Victor; best harrow, California Judson; best horse cultivator, Planet, Jr.; best two-horse cultivator (riding), the Buckeye, for orchard and vineyard work specially; best horse hoe, Planet, Jr.; best farm road scraper, the Hasimp; best stubble plow, the Morrison; best sulky plow, the Cassidy; best plow for all purposes, Oliver No. 19; best steel plow, Oliver No. 98; best two-seated open carriage, the Studebaker; best farm wagon for general purposes, the Studebaker. A special exhibit is also made of two vineyard plows. The above showing is entirely creditable to Mr. Luitweiler, who in a few years has built up an establishment which ranks among the first of its kind on the coast. The implements are all standard, and their reliability has been proved over and over.

DAY'S MUSIC STORE.

Chas. E. Day & Co. have a very creditable showing of musical instruments at the fair. The exhibit comprises the Decker Bros. and Mathushek pianos and the Chase organ. These instruments have been steadily gaining in popularity in this section of the State, and the sales within the past few months have been enormous. The good qualities of the Decker piano are well known. It is referred to by many leading musicians as *the* best, and in tone, finish and durability it seems to come as near perfection as possible. The Mathushek pianos have some advantages, due to a peculiar invention, which have contributed greatly to the success of the instrument. This invention has stood the test for fifteen years and is higher in public favor than ever. The Chase organ is a splendid instrument, which has made great headway of late. It has a sweet tone, and is beautifully finished. During the past week at Downey crowds have examined these instruments, and they have given the best satisfaction. Day's music stand at the fair has been the center of attraction.

FRANKS ROAD CARTS, TARBLE & SWARTS' EXHIBIT.

Mr. Tarble, of the firm of Tarble & Swarts, carriage dealers at the "Repository" in the Old Episcopal Church, 36 Temple street, has spent the past week at the Fair exhibiting the Fraser carts, which ingeniously-contrived vehicles are in use in all the leading stables of the country. They are as light as a sulky, and have a pat
